To Whom It May Concern,

The Jabezco Industrial Group, Inc. has been doing work in our facility for almost 2 years. They have successfully completed small and large projects alike in a timely manner and at a very competitive price.

Their safety program is more than on paper; it is practiced every day they are on our site. Their toolbox meetings are performed daily and they are proactive in supplying us with pre-job checklists of all their equipment to insure us that they will not endanger themselves or others.

In the over 30 years I have worked with mechanical and electrical contractors, Jabezco has been the first contractor to admit to an accounting error on a T&M contract with rental equipment and refund the overpayment. This is living up to their name as a Christian Company.

Best Regards,

A handwritten signature in blue ink that reads 'Gary W. Petee'.
