Mike,

We would like to thank you and your organization for the safe and professional work conducted at our Jackson facility during our Line 3 replacement project. Safety is a core value at Basell and we were extremely pleased with the attention to safety, prompt response to concerns and the open feedback to help us further improve our own performance. The two month project was completed without injury, on time and within budget. Your people were a pleasure to work with.

We have been searching for a contractor with your capabilities, safety focus and performance since beginning the expansion of our Jackson facility two years ago. We look forward to a lasting mutually beneficial relationship, for both major & minor capital project execution.

On behalf of the Basell Jackson team, our sincerest thanks for a job well done.
