Dear Mike:

I would like to share with you my sincere thanks to you and your team of professionals for the outstanding performance in relocating the McCauley Propeller Systems operation to Columbus.

I have to admit that during our initial walk through of the Vandalia facility I was overwhelmed with the task before us. The thought of moving an entire manufacturing operation in such a short duration seemed monumental. Tony Thompson and other members of your team put me at ease that day with their total confidence of completing the task successfully.

I was greatly impressed with the integrity and professionalism of every member of your organization that worked on this project. I commend you personally for building such a dynamic team. During the entire project, there was a great sense of camaraderie among your team, Cessna employees and the other contractors. Above all, I am most grateful for the way Jabezco managed to execute this move at nearly \$250,000 below the contracted guaranteed maximum price while dealing with a one month schedule slide initiated by Cessna. This was due to careful management of resources and expenses.

Please extend my thanks to everyone at Jabezco who had a hand in this relocation. I look forward to partnering with your company on future projects.

Sincerely,
