Date: August 19, 2006
To: Mike Seals
From: Todd Gamble
Subject: Jabezco Industrial Group, Inc.

Since June 2005, you have been servicing our facility with full time maintenance technicians. As a result of this venture, we have noticed significant decreases in the downtime of our facility equipment as well as the cost associated with the upkeep of this facility. The on site Jabezco employees have taken on many of the outside contracted tasks that were at one time being scheduled. This alone has reduced many of the maintenance and labor expenses with which we were charged. Ownership has also developed through this venture in which Jabezco feels a significant level of commitment to the facilities general maintenance requirements and Preventive Maintenance programs success. The flexibility of manning resources and resource availability has been beneficial in completion of projects and manning coverage.

I wanted to extend my thanks and appreciation for the job your company has done and is doing for us at Whirlpool (formerly known as Maytag Services). Please feel free to use this as a letter of recommendation.

Sincerely,

A handwritten signature in black ink, appearing to read "Todd Gamble", written in a cursive style.
