

THE ACCESS GROUP

July 8, 2002

Mr. Michael Seals
President
Jabezco Industrial Group
166B W. University Parkway
Jackson, TN 38305

Dear Mike,

I wanted to take this opportunity to express my appreciation to you and the Jabezco team for the tremendous support we have received on the Cessna project and on joint projects in the past. You and your management team have been extremely responsive and customer focused as we have developed execution strategy and plans for this project. The professionalism and attention to detail have made the implementation efforts go extremely smooth.

Your on-site work crews have always responded quickly and professionally and have proven extremely capable in executing their tasks. Their job knowledge and flexibility to meet unexpected challenges have always made their efforts successful. Your ability to closely monitor and maintain schedule has been critical in meeting project requirements. Your knowledge and experience with transportation and logistics requirements have resulted in smoothly planned and executed moves. Closely monitoring project costs and putting your clients' interest first sets you apart from the rest of the crowd.

Also, I would be remiss if I did not applaud you for your strong Christian ethics and integrity. "Trust" in today's business world is a highly sought characteristic and Jabezco lives this attribute. Thank you again for your fine performance and The ACCESS Group looks forward to future projects involving Jabezco.

With best regards,

Michael F. Brown
President
The ACCESS Group
